Sir:

It is respectfully requested that a certificate be  
issued, correcting errors of the above identified patent:

**Corrections** begin on page 2 of this paper.

**Remarks** begin on page 3 of this paper.

On the title page, please amend item (57) to read as follows:

In claim 38, column 69, line 6, after "group," , insert --and--.

In claim 38, column 69, after "epoxy", delete "," and insert --.--.

"

**REMARKS**

The error in issued claim 38 is that the claim defines substituent groups  $R_{m1}/R_{m2}$  at column 69, lines 15-32, but these substituent groups are not present in formula II. Thus, correction of the error is necessary to render the claim definite. Additional corrections are required for grammatical purposes, e.g., inserting "and" in column 69, at the end of line 6, and deleting "," at the end of line 14 in column 14, so that the claim may be concluded with a ".".

Applicants realized these errors in the Examiner's Amendment mailed April 22, 2009 in claim 80 of the application, or claim 38 in the issued patent. The undersigned left a telephone message for the Examiner on May 20, 2009, and further attempted to reach the Examiner on May 28, 2009 by telephone.

The Examiner did not return the calls, and the Supervisor was contacted on May 29, 2009 to point out the error. The Supervisor informed the undersigned that a certificate of correction needs to be filed after issuance.

As applicants attempted to correct the error prior to issuance, and the error was not made by the applicants, the error is believed to be that of the Patent Office. Accordingly, it is believed that no fee is due.

However, the Commissioner is hereby authorized to charge payment to charge payment or credit any overpayment to Deposit Account No. 25-0120 for any additional fees required.

Respectfully submitted,

YOUNG & THOMPSON
